About Polytechnic of Coimbra

Created in 1979, Polytechnic of Coimbra is located in the central coast of Portugal in the city known as the “students’ city”.

It is one of the ten largest Portuguese Higher Education Institutions, encompassing six teaching schools – Coimbra Agriculture School (ESAC), Coimbra Education School (ESEC), Coimbra Health School (ESTeSC), Oliveira do Hospital Management and Technology School (ESTGOH), Coimbra Business School (ISCAC) and Coimbra Institute of Engineering (ISEC) – which cover most of the training areas: agriculture, environment, education, communication, tourism, arts, management, accounting, marketing, health and engineering.

The teaching quality, the narrow connection with companies, and the internationalization are central pillars in the study programs, which assure the success in the graduates’ careers, as well as high employment rates.

The Social Welfare Service assumes also a central importance in Polytechnic of Coimbra in the proper response to your student community, providing them support, namely in scholarships, food, accommodation, health care and sports activities.
