The Instituto Superior de Engenharia do Porto (ISEP) is a public technological higher learning and research institute of engineering, located in the city of Porto, Portugal.

- ISEP has eight departments with an emphasis on applied science and technology.
- Today, ISEP is one of the biggest and most known engineering schools of Portugal, with around 6000 students and 500 faculty members.
- It has research facilities for Real-Time systems, Artificial Intelligence, Knowledge Based Systems, and Decision Support Systems.
- Internationally recognized as leading R&D centers (e.g., GECAO and CISTER) as accredited by the Fundação para a Ciência e a Tecnologia (Fundação para a Ciência e a Tecnologia), a Technology of the Portuguese Ministry of Science, Technology and Higher Education.
- ISEP offers a wide range of programs in different fields of engineering.
- ISEP is a member of the international consortium COS2000 (Design - Implement - Operate) and has more than a hundred partnerships within the European Space of Higher Education.
- 2012 - ISEP becomes the first Portuguese Higher Education institution to be certified by ISO 9001.
- ISEP is one of the higher institutions in Portugal which offers EURACE certified programs. EURACE is the European Quality Label for Bachelor & Master Level Engineering programs.
- IELTS level required.

Porto:

- Porto is the second-largest city in Portugal.
- Porto is also known for the friendly and cosmopolitan environment, which helps explain the large attraction of international students.
- Porto is a modern European city served by an international airport, railways and a public transportation system that includes both bus services and subway lines.
- Famous for a heritage which combines ancient churches and monuments, such as the Cathedral and the Church of São Francisco, and modern buildings, such as Casa da Música and the Serralves Museum.
- It is recognized as a Gamma-level global city.
