About Leiria:

- Leiria is the capital of the regional district, hosts the IPL Leiria headquarters and three of its schools.
- This region, where the sea is always present, is considered particularly interesting to live, study and work, not only for the quality of the economical and material resources, but also for the richness and beauty of natural and cultural, a characteristic of the region.
- It is a small city and where you can find the old and the new and a very good cultural tradition, hand in hand with a safe environment, and a very good quality of life guarded by its beautiful castle, with leisure areas to walk and enjoy throughout its river bank, cinemas and cultural spaces.

About the country:

- Portugal, a country with rich history of seafaring and discovery, bathed up by the Atlantic Ocean.
- Portugal is a developed country with an advanced economy, high living standards and high quality infrastructure, with a population of above 10 million, making it one of the most livable cities in Europe, according to the Global Competitiveness Report.
- It is one of the world’s most globalized, peaceful nations. Also a member of United Nations, European Union, Eurozone, NATO & Schengen Area.
- The capital city is Lisbon, one of the oldest and largest port cities on the European continent.
- Portugal is known for its high-quality education, with low tuition fees compared to countries like Germany, France & UK.
- Job opportunities are very high because of the close relation for business with Germany, France & Spain.
- Part-time job options.
- Easy visa options.

About the University:

- The Polytechnic Institute of Leiria (IPL) is a public Institution of Higher Education, at the service of society, dedicated to the production and diffusion of knowledge, creation, transmission and diffusion of culture, science, technology and art, through research and experimental development.
- The institution composed of 5 Schools (Education and Social Sciences, Technology and Management, Arts and Design, Tourism and Marine Technology and Health Sciences) an Institute for Research, Development and Advanced Studies, 13 3rd cycle units, 141 Graduation of B.A. and other national institutions, a Centre for Transfer and Diffusion of Knowledge. A Distance Learning Unit, a Training Centre for Technological Specialisation, a Research Centre for Rapid and Sustainable Product Development (renovated as a "Center for Innovation Research in Science and Technologies"), and Student Support Services.

The Polytechnic Institute of Leiria is an innovative and enterprising Higher Education Institution with a dynamic and intense ecosystem of Research and Innovation (ERD) strongly oriented to the economy and society.  

In an effort to always provide the best conditions for teaching and learning to its students, the IPL Leiria has been investing in modern, well-equipped infrastructures for learning and teaching, with access to extensive documentary and bibliographical resources libraries.

Online Employment Exchange (IPL) aims to promote the employability of its students and graduates, facilitating their integration into the labor market. The platform aims to manage both the job search and job supply by employers in the region, the country and abroad. A simple and accessible tool, anyone can register their offers or employability work experience.

ITIL is not required.

Conditions apply.
